

BLUSH

Office series

The Blush office is a playful and all-around furniture solution.

Because of their characteristic form and size they can easily be combined and be used for a variety of purposes.

The wooden inlay sits flush with the laminate tabletop. We offer the blush also in solid wood, laminate and laminate with black core surfaces without the inlay.

These tables feel right at home in a lobby area, library, work place, restaurant or any active room, making them look colourful, elegant and fun.
